

Taiwan

Asia's Global Offshore
Wind Hub

David Chiang

Taiwan Representative

German Offshore-Wind Initiative

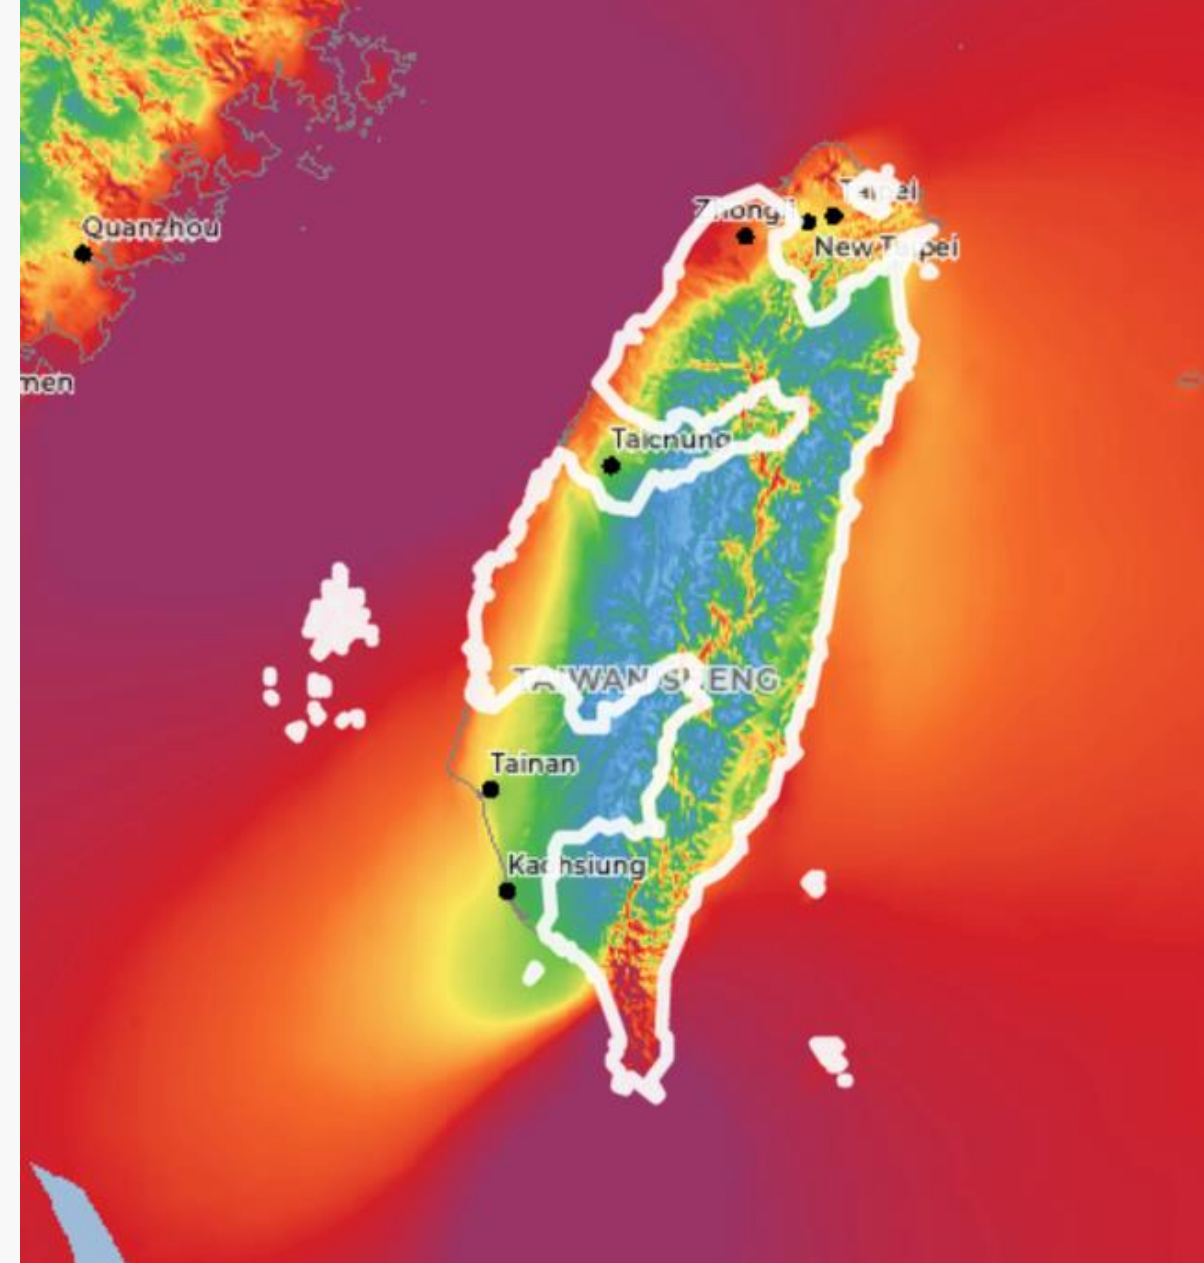

Current Status: Advanced

3 offshore wind farms

- Formosa Phase 1 (8 MW)
- Formosa Phase 2 (120 MW)
- Changhua 1 (109 MW)

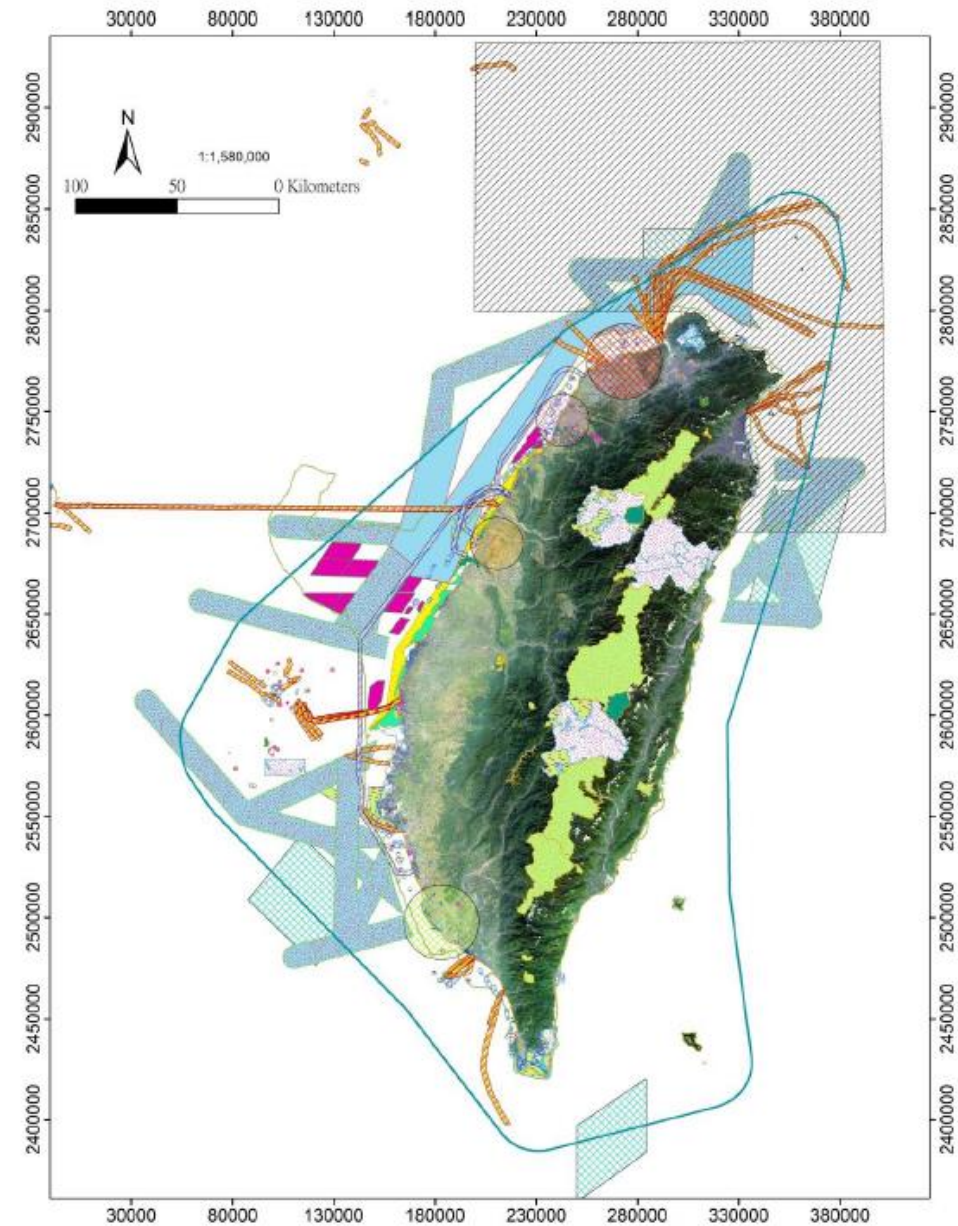

237 MW total capacity in operation

Ambitious offshore wind targets

5.7 GW by 2025

Additional 15 GW of capacity between 2026 - 2035

Well-defined Long-term Roadmap

Total Capacity of 15 GW
(2026 ~ 2035)

STAGE 1: 9 GW (2026 ~ 2031)			STAGE 2: 6 GW (2032 ~ 2035)
Phase 1 (2026 ~ 2027)	Phase 2 (2028 ~ 2029)	Phase 3 (2030 ~ 2031)	To Be Announced
3 GW (1.5GW / Y)	3 GW (1.5GW / Y)	3 GW (1.5GW / Y)	

Takeaways

Successful track record in quickly creating a dynamic offshore wind industry

Well-defined long-term offshore wind growth path until 2035

Open to international developers, suppliers and service firms
